

## ***Division 2 MST Forensics***

***Dawn Crane/Lauren Josephs***

### **Math Home Learning Plan for March 16-20**

**Goal:** To work on Exhibit 4 Constructing a Case.

**Due Date:** Tuesday, March 24, 2020

Most students have completed the learning experiences of creating constructions using a compass and straightedge. What they will be missing from the face-to-face class sessions is the opportunity for collaborative work and asking questions/getting coaching as they work.

*Dawn's class (with the exception of 3 students) have been introduced to the assignment and have gone over the instructions. Lauren's class will need to watch a video to get clarification on the instructions.*

#### **Expectations for the week:**

All students are expected to check their Parker Email daily for communication from us.

All materials are available on One Note Class Notebook in a New Section Called: **Home Learning March 16-20.**

*Here is a link to the content library where you can find this section.*

*Dawn & Jamie's Class* [\\_Content Library \(Web view\)](#)

*Lauren & Tiffany's Class* [\\_Content Library \(Web view\)](#)

You will find:

- All assessment materials:
  - Assignment Sheet & Rubric
  - Justification Template
  - Clues
  - Map
  - Justification Example
- Video Explaining and clarifying assignment instructions
- Written & Video Tutorials for Constructions

#### **How Dawn & Lauren will communicate/provide help:**

- We will check our email daily.
- Students can make appointments for phone calls or videoconferencing through Office 365 or Skype.
- Students can upload work in progress to One Note for feedback and to ask questions but must let teachers know by email.

#### **Students who don't have Access:**

Students who don't have access to a printer and or drawing compass can arrange to pick up an assessment packet with compass at the school or have that packet mailed to their home if needed.
