

Division 1 MST – Home Learning Plan for April 27 – May 1

Dear Students,

Welcome to Week 6 of Home Learning in Div. 1 MST! Just like before break, you will work from the Grid (on the next page). However, please plan your week so that you complete all required Gateway work (if needed) and do a total of two math and two science activities. These activities will prepare you for next week's Unit 3 Post-Quiz and your upcoming Ecology COW!

Goals and Notes for Week 6:

- Choose to do one activity a day from **The Week 6 Grid**. (Yep- that means you won't do ALL of them!)
 - You should work for a total of about **one hour** on your MST work each day.
 - We will have **four days of MST work this week** (no work on Wednesday – it's a catch-up day). **Teachers will not be available on Friday to answer questions**, because of PLPs, so please plan to do your Grid work independently on that day.
 - **This week you must complete two math and two science activities – please plan accordingly!**
 - **Gatewayers** will need to work on more than one Grid item on some days, to complete this week's work.
- Submit evidence of your work on **Your Submission Page** in OneNote
 - There are lots of ways to do this! But, please, put your work on **Your Submission Page**.
 - **Remember:** the time it takes you to submit your work "counts" as part of your 1 hour. **Take the time to do this because it's the only way we know you've done the work!**

Expectations:

1. Students will use their Div. 1 MST Class Notebook to:
 - Watch daily "morning videos" or read "morning message"
 - Find further information and direction about daily activities in Class Notebook
 - Submit daily work on **Your Submission Page** in your Class Notebook
2. Students will use their school email/calendar/Teams to communicate with teachers

Communication with teachers:

Teachers	Email	Class Notebook Link
Kalista Tess	kkintzing@theparkerschool.org atessmer@theparkerschool.org	Link to Kalista & Tess's Notebook
Mit Jen	mit@theparkerschool.org jdiedrich@theparkerschool.org	Link to Mit & Jen's Notebook
Stacey Skrehot	sfair@theparkerschool.org kskrehot@theparkerschool.org	Link to Stacey & Skrehot's Notebook

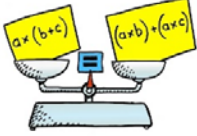

Teachers will be **checking email** between 9:00-10:00 AM and 12:30-2:00 PM. If you need an immediate reply, email during those windows.

Book **virtual appointments** with your teachers! E-mail about how!

Optional **MST Class Help Sessions** occur from 12:30-1:00 PM on M, T, Th, and F.

The Grid

Please complete 2 Science activities and 2 Math activities (one learning and one practice) this week.

Activity Options for Week 6		
<p>Science: Field Work</p> 	<p>Science: Animals Shopping List</p> 	<p>Science: What's That Plant?</p> 
<p>Math: Learning Distribution with Integers</p> 	<p>Adding COW 8 to your Portfolio</p> 	<p>Math: Learning Multi-Step Equations</p> 
<p>Math: Practicing Distribution with Integers</p> 	<p>Attend an MST Help Session</p> 	<p>Math: Practicing Multi-Step Equations</p>
