

Week 6 home learning plan – Trig

Overview:

Welcome back from our staycation! Hopefully you were able to find time relax. To both get back into the work and remember what we have done...it is revision week! So far we since the beginning of home learning you have turned in both a technical communication and a math problem solving piece and it is about time we go back and revise them! In order to be able to meet the needs of everyone I am switching up how I will be doing extra help this week to allow for more one on one time. Like many other teachers have done I am adding the bookings feature so you can schedule time to meet with me to discuss these 2 pieces or to just go over recent class concepts. If people prefer this method of help better this might be the option I change to long term as opposed to the after-school help sessions.

You will find your assessed tech comm and the rubric for the assessment in the POWs section of your OneNote on Monday and the POW will be added on Tuesday to the same section.

Goals of this week:

- Revisions! Take some time to look back at your work and improve what you have already done
- If you are behind on the work from previous weeks this is a great time to go back and finish some old work as we move towards new concepts.

Day of the week	What you should do
Monday	Look over feedback of tech comm and make a plan for revision/meet with Phil if needed
Tuesday	Begin tech comm revisions/meet with Phil if needed
Wednesday	Do something fun! (let me know what ya did!)
Thursday	Complete Tech Comm revisions and begin POW 3 revision/meet with Phil if needed
Friday	Finish POW 3 revision/meet with Phil if needed

How to turn in your work:

- 1) Upload/print your typed document to the OneNote page titled "Tech Comm Revision" and "POW 3 Revision"
- 2) If you did your work by hand take a picture of your papers and put them into the same sections as above. Please make sure the pictures are both large and clear.

What is due Monday May 4th at 8:00 AM (Happy Star Wars Day!)

- 1) Tech Comm revision
- 2) POW 3 revision
